Profile

Senior Solution Consultant at ServiceNow with eight years in enterprise software. Experience spans IT Operations Management (ITOM), Service Operations and enterprise solution architecture, with current work on autonomous workforce solutions. Trained in AI leadership and generative AI product innovation.

Experience

ServiceNow

Senior Solution Consultant, UAE

Mar 2025 to present

Develop autonomous workforce solutions for an airport planned to become the world's largest by passenger capacity and one of the world's largest international airlines. Support aviation and wealth management accounts through ServiceNow use cases, demonstrations and application adoption.

Proposed and demonstrated a single enterprise front door for Presight, an ADX-listed AI and big data analytics company. Structured the architecture across five independent business units covering IT, HR, Customer Experience, App Development and Asset Management.

Lead enterprise Executive Briefing Centre sessions across Ireland, the UK, UAE and Singapore.

Senior Solution Consultant, Ireland

May 2023 to Mar 2025

Advised enterprise healthcare, retail and education clients in Ireland. Designed tailored ServiceNow demonstrations for executive and senior stakeholders, qualified opportunities with account teams and worked with customers to improve application adoption.

Advisory Digital Solution Consultant, ITOM

Nov 2021 to May 2023

First EMEA Digital Specialist Solution Consultant for ITOM and Service Operations. Supported multi-product sales cycles and customer adoption through technical enablement and monthly ITOM webinars.

Salesforce

Solution Engineer, UK & Ireland

Sep 2018 to Oct 2021

Led the Quip Black Belt programme and UK & Ireland SMB solution engineering for professional services. Built an integrated weekly webinar platform and created materials adopted across EMEA sales onboarding.
